***This Tuning Dongle will immediately allow you to carry out professional tuning of one Harley-Davidson® engine. Can be used with Diag4Tune Software included in Diag4Bike Diagnostics Software #653747***

### **Tuning Dongle**

That kind of Dongle is a very quick flash tuning device for EFI Harley-Davidson® motorcycles. You are allowed to tune any fuel injected Harley-Davidson motorcycle with the Delphi ECM, 2006-2016 models. Diag4Tune downloads and stores a version of the Original calibration that was saved when the Dongle was married to the ECM. After that, you have two opportunities to flash your ECM:

- Diag4Tune Preconfigured Maps – Diag4Tune identifies your bike's information and automatically sorts a lot of applicable Power Bench proven tunes for you to choose from.
- Self made Map – with #619084 and the Smart Power Bench II #888128, or any other Power Bench, you are able to make your own 100% perfect Map for any kind of bike.

**619083** Tuning dongle (for one motorcycle)

## **RevTech 2-pc Brake Rotors**

The latest from the RevTech Billet Wheel line, 2-pc brake rotors. A perfect match to any of our RevTech billet wheels. They feature a universal design that allows them to fit both pre-00 as well as 00-17 models. The disc carriers are machined from billet aluminum and bolted to a high quality 420 stainless steel outer band that will not gaul or squeal like lesser quality discs. Available with either a chrome-plated or black anodized 'midnight' series center carrier. Made in the U.S.A.

***Fit the Front of all Single and Dual Disc Dyna 06-17, Softail 15-17 and Touring 08-17 - 11.8" Diameter (except Dyna & Touring with cast wheels)***
