FLTRXS
ROAD GLIDE SPECIAL 2017

WHAT'S BOAR?

Since 2009, Custom Chrome Europe has inspired the scene with a new slogan: „Bolt On and Ride“. While neither „Bolt On“ nor „Ride“ are new themes in a long established and creative customizing scene, the CCE team has successfully combined both themes into now annually built custom bikes which are based on existing motorcycle models that are modified with the latest and best parts available from the worldwide aftermarket. „Bolt On“ stands for easy to mount custom parts, some to be installed by the owner or garage customizers, others, more sophisticated parts, by professional CCE partners, custom shops or authorized Harley-dealers – but it never stopped the individual builder from further individualization, be it by color, surface finish treatment, engravings or what ever creative ideas come to mind. And the “Ride” part? This not just for pleasure, but assures the CCE team that these parts will work under rough and sometimes extreme conditions when the CCE team is “On the Road” to events all over Europe. But yes, the “Ride” part is also fun ...

Following in the trail of the 2017 “Thunderbolt”, CCE’s first “Milwaukee Eight” powered Road Glide Special has been created by the outstanding custom shop of Harley-Factory Frankfurt! Based on a 2017 model year FLTRXS, this eye-catching Bagger conversion is highlighting many part lines by some of this planet’s best “Bagger” and touring parts manufacturers! Harley-Factory in Frankfurt/Main has been a long time CCE partner for the Bolt-On projects, especially when it comes to quick paced premiere bikes and extreme Bagger and V-Rod creations. Top customizer Wolfgang Hübner of Harley-Factory’s in-house custom workshop took extreme care in creating an eye-catching Road Glide Special Bagger with reminiscence to the 115 year Harley-Davidson history, using a super-matt paint scheme with the 1936 introduced classic “Speedball” logo that marks the introduction of the then revolutionary OHV “Knucklehead” model. And CCE offered fitting M8 parts from the start of these exiting new Harley-models.
